Manifold product enhancements - for use with new refrigerants

TITAN R-134a / R-404A / R-407F Manifold

Climalife announce a new arrival to complement their range of equipment for refrigeration professionals. The 4 valve manifold has been designed to use with new refrigerants such as R-407F as well as R-134a and R-404A. It can be useful for all Performax® LT installations, but also during R-404A / R-407F retrofits. This 4 valve manifold is offered with class 1 80mm diameter pressure gauges for comfort and optimal reading accuracy.

TITAN R-32 / R-410A Manifold

With the development of R-32 now available on the market, there is demand from air conditioning technicians for new manifolds. In order to support its customers and their daily needs, Climalife now offers an R-32 / R-410A manifold specifically for air-conditioning installations. This 4 valve manifold is equipped with class 1 pressure gauges for optimum accuracy.

Climalife can be found on **stand 210** in **Hall 5** at Chillventa.

Developing innovative, sustainable solutions
for climate control systems

Climalife, a key partner for energy performance

Developing innovative, sustainable solutions for climate control systems

For more than a century, Climalife has been Europe's specialist in cooling fluids for refrigeration and air conditioning.

Its dynamism and commitment to quality and protecting the environment has also enabled it to gain cutting-edge expertise in the heating and renewable energy markets.

More than 250 employees are available to share their knowledge on diverse sectors such as: industrial markets, commercial markets (large outlets, local stores, etc.), housing and apartments, and the service sector (offices, hospitals, airports ...).

They can meet your needs with a range of products and services suitable for any climate control system: refrigerants, secondary refrigerants/heat transfer fluids, lubricants, equipment, cleaning, brazing alloys, analysis, services.

Climalife benefits from the structure of the Dehon Group, a key player in performance chemistry, developing innovative solutions and building special partnerships with professionals, particularly producers, manufacturers, industrial firms, and distributors.

Innovative services developed for safety and the environment, regular technical and regulatory information, and high-performance tools complete this comprehensive plan.

Climalife offer their products and services worldwide, thanks to a global distribution network made up of 13 subsidiaries (Germany, Belgium, Netherlands, France, United Kingdom, Spain, Hungary, Switzerland, Scandinavia, Italy, Russia, Panama, and Romania), and local representatives (India, China, Singapore and Malaysia) and an export subsidiary, Galco-Climalife, for the rest of the world.
